

# CAPABILITY STATEMENT

## EXECUTIVE SUMMARY

Since 2017, Visiomate has served as a trusted technology partner for organizations in the US, the Middle East, and South Asia, delivering enterprise-grade software solutions. We specialize in managed custom development services and ERP implementation and support, helping companies clear technical backlogs by integrating senior engineering talent directly into their existing teams. We combine 40 years of leadership experience with a focus on transparency, trust, and quality.

## CORE COMPETENCIES

We align our delivery with your specific hiring needs.

### 1. Custom Software & Application Development

- Full Stack & Backend: Expertise in building scalable web applications and seamless integrations using .NET Core, Python, and Node.js.
- Frontend Specialists: High-performance interfaces using React, JS, and Sass.
- Mobile Development: Native and cross-platform apps (Flutter/React Native) for iOS and Android.

### 2. Enterprise ERP & CRM Solutions

- Microsoft Dynamics 365: Certified experts in F&O (Finance & Operations) and CRM support, implementation, and reporting.
- Legacy Support: Proven track record supporting Dynamics AX 2012 R2/R3 environments.
- Odoo ERP: Full-cycle implementation, customization, and resource integration.

### 3. AI & Automation

- AI Integrations: Development of intelligent assistants and voice bots to automate customer engagement and streamline operations.
- Process Automation: Custom utilities for inventory distribution and workflow optimization.

## TECHNOLOGY STACK

Category	Technologies
Backend development	.NET Core , Python , Node.js , SQL Server, posgreSql, graphQL, Restful API,
Frontend development	React, Angular, Next JS, JavaScript (JS), jQuery, Sass
ERP	Dynamics 365 (F&O), Dynamics AX 2012, Odoo
Mobile App development	Flutter, React Native
Cloud	Azure, AWS

## US MARKET TRACK RECORD

Proven reliability with US-based organizations.

- Net Atlantic (USA): Provided dedicated .NET backend resources to modernize and support their "NextMail" email marketing platform.
- ORR Safety Corporation (USA): Integrated backend and frontend teams to develop portals, microservices, and Odoo customizations for a leading safety solution provider.
- DiversoPro (USA): Developed the backend architecture for a lawyer marketplace application using .NET Core and SQL database.
- Big Jerry's Fencing (USA): Developed a mobile application for field staff and an AI Voice Assistant to handle customer inquiries 24/7.
- Evolved Office (USA): Augmented their team with .NET development resources for their marketing platform solutions.

### SPEED TO HIRE

Bypass the 60-day hiring cycle. We deploy vetted senior talent immediately.

### US-ALIGNED CULTURE

We work as "Partners," not just vendors, ensuring close collaboration and understanding of US business standards.

### PROJECT ASSURANCE

Every engagement is backed by Expert Software Advisory to ensure scalable architecture and reduced long-term costs

**Visiomate**

Dream! bit-fully, byte-fully, thoughtfully.

# Your Trustworthy Tech Partner!

Our business centers are located in three countries: the USA, UAE, and Pakistan. Our development offshore is located in Pakistan.
